11. The Ministry of Corporate Affairs (MCA) has taken a "Green Initiative in the Corporate Governance" by allowing paperless compliances by the companies. Your company has joined the MCA in its environmental friendly initiative. The company would send documents such as Notice of the General Meetings, Annual Report and other communication to its shareholders via electronic mode to the registered e-mail addresses of shareholders. To support this green initiative of the Government in full measure, shareholders are requested to register / update their latest e-mail addresses with the Depository Participants (D.P.) with whom they are having Demat Account or send the same to the Company via e-mail at: cs@sportking.co.in We solicit your valuable co-operation and support in our endeavor to contribute our bit to the environment.
12. SEBI has mandated the submission of Permanent Account Number (PAN) by every securities market participant. Members holding shares in electronic form are therefore requested to submit their PAN to the DP with whom they maintain their demat accounts. Members holding shares in physical form should submit their PAN to M/s. Beetal Financial & Computer Services (P) Ltd /Company.
13. In compliance with the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) rules, 2014 as amended from time to time and Regulation 44 of Listing Regulations, Members have been provided with the facility of "remote e- voting" (e-voting from a venue other than place of Annual General Meeting) on resolutions proposed to be considered at the ensuing Annual General Meeting. The facility of casting the votes by the members using an electronic voting system from a place other than venue of the AGM ("remote e-voting") will be provided by Central Depository Services (India) Limited (CDSL). The facility for voting through ballot paper shall be made available at the AGM and the members attending the meeting who have not cast their vote by remote e-voting shall be able to exercise their right at the meeting through ballot paper.

The instructions for shareholders voting electronically are as under:

(i) The voting period begins on 07th day of September 2021 at 09.00 a.m (IST) and ends on 09th Day of September 2021 at 05.00 p.m (IST). During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of 03rd Day of September 2021 may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.

(ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.

(iii) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders. In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

(iv) In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. MANAGEMENT'S DISCUSSION AND ANALYSIS

BUSINESS REVIEW

Economic Outlook

COVID-19 pandemic impaired economic activity last year across the board with global growth expected to contract at (-)3.3% in 2020 as against 2.8% growth in 2019. No major country except China showed positive growth during the year. Contraction of economic activity has been unprecedented but worse has been avoided thanks to the fiscal and the monetary support extended by the authorities across the world. Central banks provided liquidity support along with various credit extension policies to a wide range of borrowers. This was augmented with the government measures to support households and firms through a number of measures including transfers, wage subsidies, liquidity support and other safety nets such as unemployment insurance and nutrition assistance. All these measures enabled increased momentum of economic activity in the second half of the year.

By end of December 2020, multiple vaccine approvals and the initiation of vaccination program in some countries brought hope. Despite that, the global prospects remain highly uncertain due to new virus mutations and human tolls. Globally, in the first quarter of FY21, the pandemic impacted private consumption demand, services sector and low-skilled labour market and the businesses.

Among advanced economies, the United States is expected to surpass its pre-COVID GDP level this year, while many others in the group will return to their pre-COVID levels only in 2022. For emerging and developing market economies China had already returned to pre-COVID GDP in 2020, whereas many others are not expected to do so until well into 2023. Governments and central banks across the world deployed a range of policy tools to support their economies such

as lowering key policy rates, quantitative easing measures, loan guarantees, cash transfers and fiscal stimulus measures. The global economy is projected to grow at 6 percent in 2021, moderating to 4.4 percent in 2022.

Indian economy was no exception to the pandemic scenario with business activities severely effected during FY21. As per the estimates released by the National Statistical Office (NSO) in May 2021, Real Gross Domestic Product (GDP) growth contracted by (-) 7.3 percent in 2020-21, as compared to a growth of 4.0 percent in 2019-20.

With the country experiencing a second wave of infection since February 21, there were localized lockdowns which had impacted economic activity going forward. The second wave's toll was mainly in terms of the hit to domestic demand. Rural demand was impacted with the wave spreading into smaller cities and villages. The support from Government spending may also moderate from the extraordinary expansion undertaken last year.

On the positive side, an active monsoon and pick up in vaccination give cause for hope. The rural and urban demand should also improve giving a positive impact on growth of the economy. Several aspects of aggregate supply conditions such as agriculture and contactless services provide tailwinds towards growth revival. Industrial production and exports have surged on strong base effects, but there is also evidence of positive momentum. Going forward, the speed and scale of vaccination will shape the path of economic recovery. Now, Reserve Bank of India (RBI) has projected real GDP growth at 9.5 per cent for FY 2021-22.

Textile Outlook

The COVID-19 pandemic has challenged the textile industry drastically in 2020. Asia, which is one of the largest markets for the textile industry in the world, has suffered from the prolonged lockdowns and restrictions in the majority of Asian countries along with the sudden drop in international demand for their products. The loss was particularly high in countries where the textile industry accounted for a larger share of the exports. According to the study by the International Labour Organization (ILO) the global textile trade collapsed during the first half of 2020. Also, exports to the major buying regions in the European Union, the United States, and Japan fell by around 70%. The industry also suffered several supply chain disruptions due to the shortages of cotton and other raw materials.

The domestic textiles and apparel industry contributes 5% to India's GDP, 7% of industry output in value terms and 12% of the country's export earnings. The textiles and apparel industry in India is the second-largest employer in the country providing direct employment to 45 million people. India is the 6th largest exporter of textiles spanning apparel, home and technical products in the world and the textiles and apparels sector is a major contributor to the Indian economy in terms of foreign exchange earnings.

The COVID-19 pandemic is a global humanitarian and health crisis, which continues to impact the major part of the country and the other geographies also reporting second and third waves of infections. The actions taken by various governments to contain the pandemic, such as closing of borders and lockdown restrictions, have resulted in significant disruption to people and businesses. The uncertainty in demand with prolonged economic impacts of the COVID-19 pandemic will impact production. To meet the demand of health community in view of the Covid-19, India became 2nd largest manufacturer of Personal Protective Equipments (PPE) kits in the world.

Indian domestic textile and apparel market is estimated at US$ 75 billion in 2020-21 which fell 30% from US$ 106 billion in 2019-20 due to the impact of Covid-19, India's T&A exports are expected to fall around 15% to reach US$ 28.4 billion in 2020-21 from USD 33.5 Billion in 2019-20. The Indian textile industry is set for growth, buoyed by both strong domestic consumption as well as export demand. Favorable demographic, rising per capital income and a shift in customer preference to branded products is expected to revive the textile industry severely impacted by the COVID-19 pandemic. The market is expected to recover and grow at 10% CAGR from 2019-20 to reach US$ 190 billion by 2025-26. India's exports of T&A are expected to grow to US$ 65 billion by 2025-26, growing at a CAGR of 11%.

Indian government has come up with several export promotion policies for the textiles sector in Budget 2021-22 and has proposed to setup seven mega integrated textile parks with world class infrastructure and plug & play facilities over a period of three years to make the country's textiles sector a manufacturing & export hub and create global export champions. To boost exports ,the government has launched a Scheme for Remission of Duties and Taxes on Exported Products (RoDTEP) to all export goods effective from 1st January 2021 other than Textile Apparels/ Garments and made-ups where the benefit of Rebate of State & Center Taxes & Levies(ROSCTL) has been extended upto 31.03.2024. However RODTEP rates for different exports products are yet to be notified. Government is expected to launch Production Linked Incentive Scheme to provide incentives for manufacture and export of specific textile products made of man-made fibre & technical textile.

The cotton yarn production declined by 21.3% y-o-y to 2.9 million tones during April 2020-February 2021. This was mainly due to sharp decline of 53%-94% in the first 3 months of FY21 on account of Covid-19 disruptions. Thereafter, the output fell by a slower 7.1% in July 2020, marginal 0.5%-1.5% in the months of August 2020, December 2020 and

February 2021 and increased by 0.2%-7% in rest of the months during FY21 on account of better domestic demand and increase in exports of cotton yarn. While domestic cotton yarn production decreased by 23.2% during April 2020 - January 2021, exports of cotton yarn increased by 4.5%, implying growth in demand from international markets. This along with higher cotton prices resulted in increase in cotton yarn prices.

Cotton production in India is estimated to remain stable y-o-y and stand at 6.1million tones in the current cotton season (CS) October2020 –September 2021backed by higher yields. Also, an increase in cotton Minimum Support Price (MSP) by 4.9% to Rs.5,515/- per quintal and 5% to Rs.5,825/- per quintal for medium staple cotton and long staple cotton, respectively, for CS 2020-21 and by 1.04% to Rs 5726/- per quintal and Rs. 6025/- per quintal for medium staple cotton and long staple cotton respectively for CS 2021-22 is estimated to aid cotton production. Apart from production, cotton supply includes carry-over stocks from last season which surged by 290.6% to 2.1 million tones and as a result total cotton supply during CS 2020-21 is estimated to increase by 21.7% to 8.4 million tones. The domestic cotton demand which was disrupted due to Covid-19 pandemic in CS 2019-20 is expected to grow by 32% to 5.6 million tones on account of a likely recovery in domestic cotton demand in the current season. India is estimated to increase cotton exports by 20% to 1.02 million tones backed by improving international cotton consumption and the demand for Indian cotton on account of its competitive pricing in the global markets. Thus higher outbound shipments will help India to reduce the surplus availability of cotton and is expected to lower India's closing stock by 1.8 million tons in the ongoing cotton season which is almost similar to last year's closing stock level.

The Government of India has laid out a Vision/ Roadmap to hit merchandise/ service of exports of USD 419 billion in this fiscal year and then USD 1000 Billion by FY 2027-28 including district as an export hub scheme and the focus on overall exports will also help in higher level of export of Textiles/Apparels/Readymade Garments.

The Company is dealing in the Yarn Segment only and Company is persistently facing such challenges and is taking necessary steps to strengthen its export/ indigenous market operations with more value added/ sustainable yarn products/customer base. Further the Company has adequate liquidity and financial resources to meet its operational requirements, financial commitments/ service of debt obligations and statutory liabilities as per indications available as on date.

Key Financial Ratios

In accordance with the SEBI (Listing Obligations and Disclosure Requirements) (Amendment) Regulations, 2018, the Company is required to give details of significant changes (change of 25% or more as compared to the immediately previous financial year) in key financial ratios. Independent Auditors' Report

To the Members of
Sportking India Limited

Report on the Audit of the Financial Statements

Opinion
We have audited the accompanying financial statements of Sportking India Limited ('the Company'), which comprise the Balance Sheet as at 31 March 2021, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash flows for the year ended and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2021, and the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion
We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters
Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. We have determined that there are no key audit matters to communicate in our report.

Information Other than the Financial Statements and Auditor's Report Thereon
The Company's Board of Directors is responsible for the other information. The other information comprises Directors' Report including annexures, if any, thereon, but does not include the financial statements and our auditor's report thereon. The Directors' Report is expected to be made available to us after the date of this auditors' report.
Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the Director's report including annexures, if any, thereon, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Financial Statements
The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Indian Accounting Standards (Ind AS) and other accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and

maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We

describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order,2016 ("the Order") issued by the Central Government in terms of sub section (11) of section 143 of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.

2. As required by Section 143(3) of the Act, based on our audit, we report, that:

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

(b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

(c) The Balance sheet, the statement of profit and loss including other comprehensive income, statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.

(d) In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended.

(e) On the basis of the written representations received from the directors as on 31st March 2021 taken on record by the Board of directors, none of the directors is disqualified as on 31st March 2021 from being appointed as a Director in terms of Section 164(2) of the Act.

(f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the internal financial control over financial reporting of the company.

(g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

(h)With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

i. The company has disclosed the impact of pending litigations on its financial position in its financial statements. Refer Note 37 to the financial statements.
ii. The company did not have any long term contracts including derivative contracts for which there were any material foreseeable losses.
iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

Annexure – "A" to the Independent Auditors' Report

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Sportking India Limited of even date)

i) In respect of the Company's fixed assets:-

a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.

b) The Company has a phased program of physical verification of its fixed assets which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the said program, the management has physically verified the fixed assets during the year. According to the information and explanations given to us, no discrepancies were noticed on such verification.

c) According to information and explanations given to us and on the basis of our examination of records of the company, the title deeds of immovable properties are held in the name of the company.

ii) According to the information and explanations given to us, the inventories have been physically verified by the management at the reasonable intervals during the year. In our opinion the frequency of verification is reasonable. The discrepancies noticed on such verification were not material and have been properly dealt with in the books of account.

iii) According to the information and explanations given to us, we report that the Company has not granted any loans, secured or unsecured to companies, firms, limited liability partnership or other parties covered in the register maintained under section 189 of the Companies Act, 2013. Therefore the provisions of paragraph 3(iii) of the Order are not applicable to the Company.

iv) According to the information and explanations given to us, the Company has not granted any loans or provided any guarantee or made any investment in other body corporate. Therefore, the provisions of section 185 and section 186 of the Companies Act, 2013 are not applicable to the company. Annexure – "B" TO THE INDEPENDENT AUDITORS REPORT
(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the members of Sportking India Limited of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial control over financial reporting of Sportking India Limited ("the Company") as of 31st March 2021 in conjunction with our audit of financial statements of company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting of the company.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that: (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company.(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanation given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the financial statements for the year ended 31st March, 2021

Note 1 GENERAL INFORMATION

Sportking India Limited (the Company) is a public limited company domiciled in India and incorporated under the provisions of the Companies Act, 1956 on 15th February 1989 and has its registered office at Village Kanech, Near Sahnewal, G.T. Road, Ludhiana, and Punjab 141120. The company is engaged in manufacturing of Cotton Yarn, Synthetic Yarn and Blended Yarn. The Company has manufacturing units at Ludhiana and Bathinda. The company's equity shares are listed at BSE Limited (Bombay Stock Exchange).

The financial statements were approved and authorized for issue by the Company's Board of Directors on 24th April 2021.

Note 2 SIGNIFICANT ACCOUNTING POLICIES, SIGNIFICANT ACCOUNTING ESTIMATES, JUDGEMENTS AND ASSUMPTIONS AND APPLICABILITY OF NEW AND REVISED IND AS

2.1 STATEMENT OF COMPLIANCE

The financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and other relevant provisions of the Act.

2.2 BASIS OF PREPARATION AND MEASUREMENT

The financial statements have been prepared on historical cost convention on accrual basis except for certain financial instruments (including derivative instruments) which are measured at fair value at the end of each reporting period.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/ or disclosure purposes in the financial statements is determined on such a basis, except for measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The functional and presentation currency of the Company is Indian rupees and all values are rounded to the nearest lakhs and two decimals thereof, except otherwise stated.

2.3 SIGNIFICANT ACCOUNTING POLICIES:

2.3.1 Revenue Recognition

Revenue from contracts with customers is recognised as and when the company satisfies performance obligation by transfer of control of goods at an amount that reflects the consideration entitled in exchange for those goods.

Generally, control is transferred upon shipment of goods to the customer or when the goods is made available to the customer, provided transfer of title to the customer occurs and the company has not retained any significant risk of ownership or future obligations with respect to the goods shipped.

2.3.1(a) Sale of products

Revenue from sale of products is recognized at a point of time when the control of goods is transferred to the customer which is usually on dispatch/delivery. Sale is net of sales returns, discounts and goods and services tax.

Revenue is measured at the amount of consideration which the company expects to be entitled to in exchange for transferring distinct goods to a customer as specified in the contract, excluding amount collected on behalf of third parties (For example taxes and duties collected on the behalf of government). Consideration is generally due upon satisfaction of performance obligation and receivable is recognized when it becomes unconditional.

The company does not adjust short term advances received from the customer for the effects of significant financing component if it is expected at the contract inception that the promised goods will be transferred to the customer within a period of.

2.3.1(b) Interest Income

a) Revenue in respect of interest from customers is recognized when no significant uncertainty exists with regard to the amount to be realized and the ultimate collection thereof.
b) Interest income from financial assets is recognised when it is probable that economic benefit will flow to the company and the amount of income can be measured reliably and is recognised on a time basis, by reference to the principal amount outstanding and at effective interest rate.

2.3.1(c) Dividend

Dividend income is recognized when the right to receive payment is established and the amount of dividend can be measured reliably.

2.3.1(d) Insurance claims

Insurance and other claims are recognized when no significant uncertainty exists with regard to the amount to be realized and the ultimate collection thereof.

2.3.1(e) Other Income

Revenue in respect of other income is recognized when no significant uncertainty exists with regard to the amount to be realized and the ultimate collection thereof.

2.3.2 Employee Benefits

2.3.2(a) Short term Employee Benefits:

Employee benefits payable wholly within twelve months of receiving employee services are classified as short-term employee benefits. The amount of short term employee benefits are recognized as an expense on an undiscounted basis in the statement of profit and loss of the year in which the related service is rendered.

2.3.2(b) Post-Employment benefit plans

(a) Defined Contribution Plan:

Provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service.

(b) Defined Benefit Plan:

The Company provides for gratuity, a defined benefit retirement plan ('the Gratuity Plan') covering eligible employees of the Company. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Company.

Liabilities with regard to the Gratuity Plan are determined by actuarial valuation, performed by an independent actuary, at each balance sheet date using the projected unit credit method. The company fully contributes all ascertained liabilities to the "Sportking India Limited Employee Group Gratuity Trust" managed by the trustees. The trustees administrate contributions made to the Trust and contributions are invested in the schemes as permitted by the laws of India.

The Company recognizes the net obligation of a defined benefit plan in its balance sheet as an asset or liability. Re-measurements comprising of actuarial gains and losses, the effect of the asset ceiling (excluding amounts included in net interest on the net defined benefit liability) and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability) are recognised in Other Comprehensive Income which are not reclassified to profit or loss in subsequent periods. All other expenses related to defined benefit plans are recognised in employee benefits expense in the Statement of profit and loss

2.3.2(c) Other long term employee benefits- Compensated absences:

The Company has a policy on compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each balance sheet date using projected unit credit method. Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

2.3.3 Property, plant and equipment:

On transition to Ind AS, the Company has elected to continue with the carrying value of all its Property, plant and equipment as at 1st April, 2016 measured as per previous GAAP and use its carrying value as its deemed cost as on date of transition.

Freehold land is carried at cost. All other items of Property, plant and equipment are stated at cost, less accumulated depreciation and impairment loss, if any. The cost directly attributable to acquisition are capitalised until the property plant and equipment are ready for use as intended by the management.

The cost of an item of Property, plant and equipment comprises of:

i. Purchase price including import duties and non-refundable purchase taxes after deducting trade discounts and rebates.
ii. any expenditure directly attributable for bringing an asset to the location and the working condition for its intended use and
iii. the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, the obligation for which an entity incurs either when the item is acquired or as a consequence of having used the item during a particular period for purposes other than to produce inventories during that period.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'.

Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in net profit in the statement of profit and loss when incurred. An item of Property, Plant and Equipment and any significant part initially recognized is derecognised upon disposal or when no future economic benefits are expected from its use. Any gain or loss arising on recognition of the asset measured as the difference between the net disposal proceeds and the carrying amount of the asset is included in the income statement when the asset is derecognized.

De-recognition of Property, Plant and Equipment

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on disposal or retirement of an item of property, plant and equipment is determined as the difference between sale proceeds and the carrying amount of the asset and is recognised in profit or loss. Fully depreciated assets still in use are retained in the financial statements.

2.3.4 Intangible Assets

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

The Company has elected to continue with the carrying value of all its intangible assets recognised as on April 1, 2016 measured as per the previous GAAP and use that carrying value as its deemed cost as on transition date.

De-recognition of intangible assets

The cost and related accumulated amortization are eliminated from financial statement upon disposal or retirement of the assets and the resulted gain or losses are recognized in the statement of profit and loss.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

2.3.5 Depreciation and amortization

Depreciation is provided on Straight Line Method on the basis of useful lives of such assets specified in Schedule II to the Act.

Depreciation method, useful lives and residual values are reviewed periodically, including at each financial year end with the effect of any changes in estimate accounted for on a prospective basis.

Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, etc. Amortisation method and useful life are reviewed periodically, including at each financial year end with the effect of any changes in estimate accounted for on a prospective basis.

2.3.6 Inventories

Inventories are valued at cost or net realizable value, whichever is lower. The cost in respect of the various items of inventory is computed as under:

- In case of raw materials At first-in first-out (FIFO) basis. The cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.
- In case of stores and spares at weighted average cost plus direct expenses. The cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.
- In case of work in progress at raw material cost plus conversion costs depending upon the stage of completion.
- In case of finished goods at average raw material cost plus conversion costs, packing cost and other overheads incurred to bring the goods to their present location and condition.

Net Realisable Value is the estimated selling price in ordinary course of business less estimated cost of completion and estimated cost necessary to make the sales.

2.3.7 Borrowing Costs

Borrowing costs that are directly attributable to the acquisition or construction of a qualifying asset, which are assets that necessarily take a substantial period of time to get ready for their intended use, are added to the cost of the assets. Other borrowing costs are recognized in the statement of Profit and Loss in the period in which they are incurred. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

2.3.8 Earnings per Share

Basic earnings per share is computed by dividing the profit for the period attributable to the equity shareholders of the company by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the profit for the period attributable to the equity shareholders is divided by the weighted average number of shares outstanding during the period are adjusted for the effects of all diluted potential equity shares, if any.

2.3.9 Income Taxes

Income tax expense comprises current income tax and net change in deferred income tax asset and liability during the year.

Income tax expense is recognized on net profit in the statement of profit and loss except to the extent that it relates to items recognized directly in equity or other comprehensive income, in which case it is recognized in equity or other comprehensive income respectively.

Current income tax for current periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax base of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date.

A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The Company offsets current tax assets and liabilities and also deferred tax assets and liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

2.3.10 Government Grants

The government grants are recognized only when there is reasonable assurance that the conditions attached to them shall be complied with, and the grants will be received.

Government grants related to fixed assets up to financial year 2018-19 were recognised in statement of profit or loss as income on a systematic basis. As per the amendment in Ind-AS 20 "Government Grants vide notification dated 20th September, 2018, the Company has opted to present the grant received / receivable related to assets as deduction from the carrying value of such assets w.e.f. 1st April, 2019.

Government grants related to revenue are recognized on a systematic basis in the statement of profit and loss over the periods necessary to match them with the related costs which they are intended to compensate.

2.3.11 Foreign Currency translations

Transactions in foreign currency are initially recorded in the functional currency i.e. Indian Rupees using the exchange rate prevailing at the date of transactions.

Monetary items denominated in foreign currency are reported using the exchange rate prevailing at the end of reporting period. The exchange difference arising on the settlement or reporting of monetary items at rates different from rates at which these were initially recorded / reported in previous financial statements, are recognised in the statement of profit and loss in the period in which they arise.

Non-monetary items denominated in foreign currency and measured at historical cost are recorded at the exchange rate prevalent at the date of transaction, Non-monetary items that are measured in term of historical cost in foreign currency are not retranslated.

2.3.12 Dividends

Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the company's Board of Directors.

2.3.13 Leases

The Company as a lessee

The Company's lease asset classes primarily consist of leases for buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and leases for which underlying asset is of low value. For these short-term and leases for which underlying asset is of low value, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.
The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets is evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual

asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the lessee's incremental borrowing rate. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and Right of Use assets have been separately presented in the Balance sheet and Lease Payments has been classified as financing cash flows.

The Company as a lessor

Leases for which the company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease

2.3.14 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

2.3.14(a) Initial Recognition and measurement

The company recognises the financial assets and financial liabilities when it becomes party to the contractual provision of the instruments. All financial assets and liabilities are recognised at fair value on initial recognition except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities that are not at fair value through profit or loss are added/ reduced to the fair value on initial recognition.

Transaction cost directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit and loss are recognised immediately in the statement of profit and loss.

2.3.14(b) Subsequent measurement

(a) Non-derivative financial instruments

*** Financial assets carried at amortised cost**

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

**** Financial assets at fair value through other comprehensive income**

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income is recognised in profit or loss for instruments measured at Fair value through other comprehensive income.

***** Financial assets at fair value through profit or loss**

A financial asset is measured at fair value through profit and loss unless it is measured at amortized cost or at fair value through other comprehensive income.

****** Financial liabilities**

The financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

(b) Derivative financial instruments

The Company holds derivative financial instruments such as foreign exchange forward contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank.

Although the Company believes that these derivatives constitute hedges from an economic perspective, they may not qualify for hedge accounting under Ind AS 109, Financial Instruments. Any derivative that is either not designated a hedge, or is so designated but is ineffective as per Ind AS 109, is categorized as a financial asset or financial liability, at fair value through profit or loss.

Derivatives not designated as hedges are recognized initially at fair value and attributable transaction costs are recognized in net profit in the statement of profit and loss when incurred. Subsequent to initial recognition, these derivatives are measured at fair value through profit or loss and the resulting exchange gains or losses are charged to Statement of Profit and Loss.

(c) Equity Share

Equity shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares and share options are recognized as a deduction from equity, net of any tax effects.

(d) Compound financial instruments

The non-convertible non-cumulative preference shares issued by the company that provides for mandatory redemption by the company for a fixed or determinable amount at a fixed or determinable future date has been treated as a compound financial instruments as per criteria mentioned in Ind AS 32.

On issuance of the convertible preference shares, the fair value of the liability component is determined using a market interest rate for an equivalent non-convertible instrument. This amount is classified as a financial liability measured at amortised cost (net of transaction costs). The remainder of the proceeds is recognised and included in other equity.

(e) De-recognition of financial instruments

A financial asset is derecognized when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for de-recognition under Ind AS 109. A financial liability (or a part of financial liability) is derecognized when the obligation specified in the contract is discharged or cancelled or expires.

2.3.15 Impairment

2.3.15(a) Financial assets (other than measured at fair value through profit or loss)

The company recognizes loss allowances using the expected credit loss model for the financial assets which are not fair valued through profit or loss.

Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime expected credit losses. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit loss, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime expected credit loss.

2.3.15(b) Non-financial assets

Intangible assets and property, plant and equipment

Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the statement of profit and loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

Impairment is reviewed periodically including at the end of each financial year.

2.3.16 Cash and cash equivalents

The Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with the original maturity period of three months or less, which are subject to an insignificant risk of changes in value and all highly liquid investments that are readily convertible to known amounts of cash to be cash equivalents.

2.3.17 Cash flow statement

The cash flow statement is prepared in accordance with the Indian Accounting Standard (Ind AS) - 7 "Statement of Cash flows" using the indirect method for operating activities. Whereby profit for the period is adjusted for the effects of transaction of a non-cash nature, and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the company are segregated.
Cash flows arising from proceeds and repayment of the current borrowing are reported on net basis, as the turnover is quick, the amounts are large and the maturities are short.

2.3.18 Provisions and contingent liabilities

2.3.18 (a) A provision is recognised when:

(a) an entity has a present obligation as a result of a past event;

(b) it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and

(c) a reliable estimate can be made of the amount of the obligation.

2.3.18 (b) A disclosure for a contingent liability is made when there is :

(a) a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity; or

(b) a present obligation that arises from past events but is not recognised because:

* it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or

** the amount of the obligation cannot be measured with sufficient reliability.

*** Contingent assets are not recognised in the financial statements since this may result in the recognition of income that may never be accrued/ realised. A disclosure for contingent assets is made when an inflow of economic benefit is probable.

2.4 SIGNIFICANT ACCOUNTING ESTIMATES, JUDEMENTS AND ASSUMPTIONS

Use of estimates and judgements
The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made. Differences between actual results and estimates are recognised in the period in which the results are known/materialised.

Critical accounting, estimates, assumptions and judgements

The following are the areas of estimation uncertainty and critical judgements that the management has made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognised in the financial statements:

2.4.1 Useful lives of depreciable tangible and intangible assets

The estimated useful lives of tangible and intangible assets are based on a number of factors including the effects of obsolescence, internal assessment of user experience and other economic factors (such as the stability of the industry, and known technological advances) and the level of maintenance expenditure required to obtain the expected future cash flows from the asset.

The management reviews the useful life of depreciable/amortisable assets at each reporting date.

2.4.2 Recoverable amount of property, plant and equipment

The recoverable amount of property plant and equipment is based on estimates and assumptions regarding the expected market outlook and expected future cash flows. Any changes in these assumptions may have a material impact on the measurement of the recoverable amount and could result in impairment.

2.4.3 Defined benefit plans

Employee benefit obligations are measured on the basis of actuarial assumptions including any changes in these assumptions that may have a material impact on the resulting calculations.

2.4.4 Recognition of deferred tax asset

Management judgement is required for the calculation of provision for income taxes and deferred tax assets and liabilities. The company reviews at each balance sheet date the carrying amount of deferred tax assets. The factors used in estimates may differ from actual outcome which could lead to significant adjustment to the amounts reported in financial statement.

2.4.5 Contingencies

Management judgement is required for estimating the possible outflow of resources, if any, in respect of contingencies/claims/litigations against the Company as it is not possible to predict the outcome of pending matters with accuracy. The Company annually assesses such claims and monitors the legal environment on an ongoing basis, with the assistance of external legal counsel, wherever necessary.

2.4.6 Fair Value measurements

Some of the Company's assets and liabilities are measured at fair value for financial reporting purposes. In estimating the fair value of an asset or liability, the Company uses market-observable data to the extent is available. Information about the valuation techniques and inputs used in determining the fair value of various assets and liabilities are disclosed in note no. 46.

2.4.7 Estimation of uncertainties relating to the global health pandemic from COVID-19

The company has made assessment of impact of COVID-19 on carrying amount of property, plant and equipment, inventories, receivables and other current assets. Based on current indicators of future economic conditions, the company expects to recover the carrying amount of these assets. However, in view of highly uncertain and continuously evolving business environment, the eventual impact of COVID-19 may be different from the estimated as at the date of approval of these financial statements. The company will continue to closely monitor any material changes arising of future economic conditions and its impact on business.

2.4.8 Inventory

Management has carefully estimated the net realizable values of inventories, taking into account the most reliable evidence available at each reporting date. The future realization of these inventories may be affected by market driven changes.

2.5 CURRENT – NON-CURRENT CLASSIFICATION

All assets and liabilities have been classified as current and non-current on the basis of the following criteria:

Assets

An asset is classified as current when it satisfies any of the following criteria:

a) it is expected to be realised in, or is intended for sale or consumption in, the company's normal operating cycle;
b) it is held primarily for the purpose of being traded;
c) it is expected to be realised within 12 months after the reporting date; or
d) It is cash or cash equivalent unless it is restricted from being exchanged or use to settle a liability for at least 12 months after the reporting date.

Current assets also include the current portion of non-current financial assets.

All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

a) it is expected to be settled in the company's normal operating cycle;
b) it is held primarily for the purpose of being traded;
c) it is due to be settled within 12 months after the reporting date; or
d) The Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterpart, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities also include current portion of non-current financial liabilities.

All other liabilities are classified as non-current

Operating cycle

Operating cycle is the time between the acquisition of assets for processing/servicing and their realization in cash or cash equivalents.

2.6 APPLICABILITY OF NEW AND REVISED IND AS

Ministry of corporate affairs (MCA) notifies new standards or amendments to the existing standards. There is no such notification which would be applicable w.e.f. 1st April, 2021.

(iii) Nature and Purpose of Reserve

1) Equity Component of Compound Financial Instruments
The fair value of the liability component of non- convertible preference shares issued by the company has been determined using a effective interest rate for an equivalent non-convertible instrument and the said amount is classified as a financial liability.The remainder of the proceeds is recognised as 'Equity Component of Compound Financial Instruments' in other equity as per provisions of Ind AS 32.

2) Capital Redemption Reserve
The Company has created Capital redemption reserve for redemption of preference shares at its maturity and certain amount is transferred to the said reserve each year. The reserve can be utilised for issuing bonus shares.

3) Securities Premium
This represents amount of premium recognised on issue of shares to shareholders at a price more than its face value. The reserve can be utilised in accordance with the provisions of the Companies Act 2013.

4) General Reserve
This represents retained earnings which are kept aside out of company's profits. It is a free reserve which can be utilized to meet any future contingencies and to pay dividend to shareholders.

5) Retained Earnings
Retained earnings refer to net earnings not paid out as dividend but retained by the company to be reinvested in its core business. The amount is available for distribution of dividend to its equity shareholders.

6) Reserve for other items through Other comprehensive income
The reserve represents cumulative gains and losses on remeasurement of defined benefit plan (net of taxes). The balance in Other Comprehensive income can be transferred to Other Components of equity i.e. retained earnings as and when the company decides to do so.

NOTE-40
Disclosures on 'Employee Benefits'

(A) Defined Contribution Plan
The Company makes Contribution to Provident Fund for eligible employees under the scheme and recognize the same as expense which is included in the Note 30 "Employee Benefit Expense" to the financial statements under the head "Contribution to provident and other funds". The details of same are as under:

(Rs in Lakhs)

Particulars	For the Year ended 31st March,2021	For the Year ended 31st March,2020
Provident Fund administered through Regional Provident Fund Commissioner	462.33	474.10

Defined Benefit Plan
Gratuity:
The defined benefit plan of gratuity is administered by a separate trust that is legally separate from the entity. The trustees are required by the law to act in the interest of the trust and all the relevant stakeholders i.e. active employees, retired employees and employers, etc. The trust is responsible for investment policy with regard to the assets of the trust and the contributions are invested in a scheme with Life Insurance Corporation of India as permitted by law. The liability for employee gratuity is determined on actuarial valuation using projected unit credit method.

These plans typically expose the Company to actuarial risks such as investment risk, salary risk, interest rate risk and longevity risk.

(i) Investment risk
The probability or likelihood of occurrence of losses relative to the expected return on any particular investment.

(ii) Salary risk
The present value of defined benefit plan is calculated with the assumption of salary increase, rate of plan, participants in future. Deviation in rate of increase in salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

(iii) Interest risk
The plan exposes the company to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in value of the liability.

(iv) Longevity risk
The present value of defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after employment. An increase in the life expectancy of the plan participants will increase the plans liability.

The Following table set out the funded status of the gratuity plan and amounts recognised in the balance sheet and other disclosures as required under Ind AS 19 'Employee benefits':

NOTE-48
Capital Management

The capital structure of the company consists of net debt and total equity of the company (borrowing as disclosed in note no. 13 and offset by cash and bank balance).The equity includes equity capital, share premium and all other equity reserves attributable to the equity holders of the company. The primary objective of the company's capital management is to maintain optimum capital structure to reduce cost of capital and to maximize the shareholder value.

The company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants which otherwise would permit the banks to immediately call loans and borrowings. In order to maintain or adjust the capital structure, the company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company is not subject to any externally imposed capital requirements.

The Company monitors capital using a gearing ratio, which is net debt (net of cash and cash equivalents) divided by total equity. The Company's gearing ratio is as follows:

(Rs in Lakhs)

Particulars	As at 31st March,2021	As at 31st March,2020

Further, there have been no breaches in the financial covenants of any interest-bearing loans and borrowing during the reporting period.

There were no changes in the objectives, policies or processes for managing capital from prior years.

NOTE-49
Financial Instruments and Risk Management

The principal financial assets of the Company include trade and other receivables, loans and advances and cash and bank balances that derive directly from its operations. The principal financial liabilities of the company include loans and borrowings, trade and other payables and the main purpose of these financial liabilities is to finance the day to day operations of the company.

The Company is exposed to market risk (including foreign currency risk, interest rate risk and other price risk), credit risk and liquidity risk. The Company's senior management oversees the management of these risks and that advises on financial risks and the appropriate financial risk governance framework for the Company.

This note explains the risks which the company is exposed to and policies and framework adopted by the company to manage these risks:

(i) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: foreign currency risk, interest rate risk and investment risk.

a) Foreign Currency Risk

The company operates internationally and business is transacted in several currencies. The export sales of company comprise around 48% of the total sales of the company, Further the company also imports certain assets and raw material/stores etc. from outside India. The exchange rate between the Indian rupee and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the company is exposed to foreign currency risk and the results of the company may be affected as the rupee appreciates/ depreciates against foreign currencies. Foreign exchange risk arises from the future probable transactions and recognized assets and liabilities denominated in a currency other than company's functional currency.

The company measures the risk through a forecast of highly probable foreign currency cash flows and manages its foreign currency risk by appropriately hedging the transactions. The Company uses derivative financial instruments such as foreign exchange forward contracts to mitigate the risk of changes in exchange rates on foreign currency exposures.

The following table summarizes the company's exposure foreign currency risk from financial instruments at the end of each reporting period:

Foreign currency sensitivity

The impact on the Company's profit before tax due to changes in the fair value of monetary assets and liabilities including foreign currency derivatives on account of reasonably possible change in USD, CHF and Euro exchange rates (with all other variables held constant) will be as under:

(Rs in Lakhs)

Particulars	**As at 31st March,2021**	**As at 31st March,2020**
10% Strengthening/ weakening of USD against INR	(651.83)	(550.51)
10% Strengthening/ weakening of Euro against INR	(10.94)	-

b) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

As the Company has no significant interest-bearing assets, the income and operating cash flows are substantially independent of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates, which are included in interest bearing loans and borrowings in these financial statements. The company's fixed rate borrowings are not subject to interest rate risk, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

At the reporting date the interest rate profile of the Company's interest bearing financial instrument is as below:

(Rs in Lakhs)

Particulars	**As at 31st March,2021**	**As at 31st March,2020**
Variable Rate Instruments		
Borrowings (Non-current) (inclusive of current maturities)	22987.15	26854.65
Borrowings (Current)	17349.79	21237.37
Total variable Rate Borrowings	**40336.94**	**48092.02**

Particulars	**As at 31 March,2021**	**As at 31 March,2020**
Fixed Rate Instruments		
Borrowings (Non-current) (inclusive of current maturities)	154.91	46.50
Borrowings (Current)	9044.00	7876.10
Total fixed Rate Borrowings	**9198.91**	**7922.60**

Cash flow sensitivity analysis for variable rate instruments

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. A change of 100 basis points in interest rates for variable rate instruments at the reporting date would have increased/(decreased) profit or loss for the below years by the amounts shown below. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

(Rs in Lakhs)

Particulars	**As at 31st March,2021**	**As at 31st March,2020**
Increase/ (decrease) in 100 basis point	403.37	480.92

c) Investment Risk:

Company has not made any investments hence it is not exposed to investment risk.

(ii) Liquidity Risk

The financial liabilities of the company, other than derivatives, include loans and borrowings, trade and other payables. The company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations.

The company monitors its risk of shortage of funds to meet the financial liabilities using a liquidity planning tool. The company plans to maintain sufficient cash to meet the obligations as and when fall due.

The table below analyses the company's financial liabilities and financial assets into relevant maturity groupings based on their contractual maturities

In addition to above financial assets, the company has inventories of Rs 28119.89 Lakhs as on 31st March, 2021 (Rs 21131.75 Lakhs as on 31st March, 2020) which can be realized to meet its financial obligations.

(iii) Credit Risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables which are typically unsecured. Credit risk on cash and bank balances is limited as the company generally invests in deposits with banks and financial institutions with high credit ratings assigned by credit rating agencies. The Company's credit risk in case of all other financial instruments is negligible.

The company assesses the credit risk based on external credit ratings assigned by credit rating agencies. The company also assesses the creditworthiness of the customers internally to whom goods are sold on credit terms in the normal course of business. The credit limit of each customer is defined in accordance with this assessment. Outstanding customer receivables are regularly monitored and shipments to overseas customers are generally covered by letters of credit of foreign bank.

The impairment analysis is performed on client to client basis for the debtors that are past due at the end of each reporting date. The company has not considered an allowance for credit loss in case of trade receivables that are past due but there has not been a significant change in the credit quality and the amounts are still considered recoverable.

The following is the detail of revenues generated from top five customers of the company and allowance for lifetime expected credit loss in case of trade receivables:

(Rs in Lakhs)

Particulars	**As at 31st March,2021**	**As at 31st March,2020**
(a)Revenue from top five customers		
- Amount of sales (In Lakhs)	30966.50	31704.32

-Amount written off/ reversed during the year	(0.72)	-
-Recognized during the year	11.80	6.20
-Balance at the end of the period	17.28	6.20

The maximum exposure to credit risk at the reporting date is the carrying value of trade receivables as disclosed at Note 7.

Write off policy

The financials assets are written off in case there is no reasonable expectation of recovering from the financial asset.
