GLOBAL ECONOMY

The global economy was seen recovering in 2021 after the high market volatility and deep recession in 2020. This comes just as the threat from the Omicron variant appeared to be fading, with major economies of the world moving past the acute phase of the pandemic. At the end of 2021, inflation in several regions surged to multi-decadal highs. A key driver of inflation across the world has been the rapid surge in energy, food, and commodity prices. The risk of newer variants in China has led to mobility restrictions and localised lockdowns, which has slowed private consumption. Central banks across the world have started tightening their stances and others are expected to follow in response to domestic macroeconomic conditions, including rising inflationary pressures. After a strong rebound in 2021, the economic indicators suggest that global activity has slowed owing to the Russia-Ukraine war. Global growth is projected to decline from 6.1% in 2021 to 3.6% in 2022 and 2023.
(Source: IMF World Economic Outlook, April 2022)

INDIAN ECONOMY

The Indian economy was well on its recovery path following the second wave of the COVID-19 pandemic, with both industry and service sectors showing steady development. However, the emergence of newer variants of COVID, supply-chain disruptions, and, more lately, inflation has been posing fresh challenges to economic development. India's Gross Domestic Product (GDP) has grown by 8.7% in FY 2021-22, and growth is expected at 8.2% in FY 2022-23. The government expanded infrastructure spending in order to restore medium-term demand thereby assisting in overall economic growth. On the strength of several efforts on the fronts like promoting technology-enabled development, energy transition, and climate action taken by the government in the Union Budget 2022-23, the Indian economy is prepared to grow at the fastest rate among the league of large nations. However, supply-side bottlenecks persist with rising international crude oil prices and growing raw material costs. On the monetary side, the Reserve Bank of India (RBI) increased the key repo rate by 40 basis points (bps) to 4.40% to trigger economic growth amidst rising inflation. The availability of budgetary space to ramp up capital spending, advantages from supply-side reforms, and continued export growth will stimulate growth in FY 2022-23.

INDUSTRY OVERVIEW

INDIAN REAL ESTATE SECTOR

The real estate industry contributes a major share to the country's GDP as well as is the highest employment generator after the agriculture sector. India's real estate sector, specifically the residential segment, has shown a quick recovery from the pandemic-induced crisis. A number of factors like low interest rates, fall in house prices, and state governments' stimulus has supported the housing market revival in 2021. During the pandemic, people felt the need for bigger and better houses. As a result, despite the uncertain times, households chose to channelise their savings to create a real estate asset. Once the unlocking process was initiated, both the residential and office markets started showing promising signs of revival. With the impact of the second and third waves of the pandemic receding, an improving business environment, increased understanding of the pandemic and focus on vaccinations supported the recovery in the real estate market.

INDIAN RESIDENTIAL REAL ESTATE MARKET

While the operational hurdles triggered by the first and second waves of the pandemic had caused sales volumes to falter during 2020 and the first half of 2021, the Omicron variant in Q1 2022 had little impact on the residential market which achieved record sales and launch volumes during the period. The pandemic had imposed severe

restrictions on human mobility and people were compelled to stay indoors for a significant part of the past two years

The residential sector had an unprecedented year of growth with sales rising by 51% YoY at 232,903 units across the top eight cities of the country. New home launches also saw a significant rise of 58% YoY with the addition of 232,382 units in 2021. Low interest rates, improving affordability, high savings, and a resurging interest in homeownership due to space constraints imposed by the pandemic have been the primary drivers of the revival in demand.

All- India Residential Market

Particulars	**2021**	**2021 Change (YoY)**	**H2 2021**	**H2 2021 Change (YoY)**	**Q1 2022**
Launches (housing units)	232, 382	58%	129,144	50%	78627
Sales (housing units)	232, 903	51%	133, 487	41%	78,171

(Source: Knight Frank Report)

The industry continues to consolidate with residential developments steadily shifting into the hands of stronger developers who have been able to weather the economic storm caused by the pandemic. Sentiments remain strong and should continue to aid market volumes in the near term. Low interest rates, healthy affordability levels, and a waning pandemic with lower risk of further disruptions have created a favourable environment for the homebuyer who has rediscovered the need for new and better housing. While buyer preferences were skewed towards ready inventory, established developers with a robust execution record are increasingly finding a market for their under-construction inventory.

INDIAN COMMERCIAL REAL ESTATE MARKET

2021 began on a positive note with the first quarter of the year showing encouraging signs of recovery and growth, but the intense second wave of the pandemic curtailed market traction in Q2 2021. However, improving economic fundamentals and business environment coupled with a better understanding of the pandemic encouraged corporate India to gradually return to office in the second half of the year. 2.4 mn sq m (25.9 mn sq ft) of office space was transacted during H2 2021. Six of the eight markets saw transaction volumes grow in YoY terms during H2 2021. The share of transactions in the co-working/managed workspace sector was the highest amongst all sectors as the need for flexibility and a hybrid working environment has been a growing phenomenon.

With labour shortages and other supply chain bottlenecks having been overcome to a large extent in H2 2021, office completions also picked up significantly with 2.2 mn sq m (23.7 mn sq ft) getting delivered during the period.

All-India Office Market

Particulars	2021	2021 Change (YoY)	H2 2021	H2 2021 Change (YoY)	Q1 2022
Launches (housing units)	38.7	9%	23.7	38%	11.9

Sectorial demand drivers

Urbanization: India's population is expected to be 1.52 Bn by 2036 with a 70% increase in the urban areas. India's urban population is expected to grow from 35% in 2022 to 39% by 2036, driving the growth of the real estate sector.

Demographic advantage: India has more than 50% of the population below the age of 25 and more than 65% of

the population below the age of 35. This demographic advantage is expected to translate into increased real estate demand.

Relaxation of FDI norms: The Government of India allowed FDI up to 100% in the Indian real estate sector, which is expected to attract increasing investments

Positive sentiments: The pandemic-infused trends coupled with low-interest rates, affordability, and other favorable factors harnessed the positive sentiments in these markets resulting in growing property sales.

Government's focus: The Government focused on Smart Cities Mission & Affordable Housing Programs. The extension of the Pradhan Mantri Awas Yojana (PMAY) scheme to March 2023 and allocation of H48,000 Crore could enhance affordable housing benefit schemes for 80 Lakh new beneficiaries within the middle class and economically weaker sections

Government initiatives

1 The Government proposed to extend the increase in differential rate between the circle rate and agreement value from 10% to 20%, applicable till 30 June, 2022 from 30 June, 2021.
2 In October 2021, the RBI announced to keep the benchmark interest rate unchanged at 4%, a major boost to the real estate sector in the country. The low home loan interest rates regime is expected to drive the housing demand and increase sales in the coming years.
3 Under the Union Budget 2022-23, the Government allocated H48,000 Crore under PMAY for urban and rural in FY 2022-23.
4 Under the Union Budget 2022-23, the Government introduced a high level committee for urban planners and institutes to frame policies for development. This will provide an impetus to the real estate sector by helping transform Tier 2 and 3 cities.
5 To revive around 1,600 stalled housing projects across leading cities, the Union Cabinet approved the setting up of H25,000 Crore (USD 3.58 Bn) alternative investment fund (AIF).

RISKS AND CONCERNS

Market price fluctuation

The performance of your Company may be affected by the sales and rental realizations of its projects. These pricesare driven by prevailing market conditions, the nature and location of the projects, and other factors such as brand and reputation and the design of the projects. Your Company follows a prudent business model and tries to ensuresteady cash flow even during adverse pricing scenario.

Sales volume

The volume of bookings depends on the ability to design projects that will meet customer preferences, getting various approvals in time, general market factors, project launch and customer trust in entering into sale agreements wellin advance of receiving possession of the projects. Your Company sells its projects in phases from the time it launches the project, based on the type and scale of the project and depending on market conditions

Pandemic risk

The outbreak of a novel strain of coronavirus (i.e. COVID-19), which commenced in December 2019 has now spread across the world. India has been no exception and currently our country is looking to come out of second disastrous wave. At the same time, the country is progressing well in its vaccination program. All prominent rating companies and experts, including Reserve Bank of India have projected a healthy recovery of economic activities in India. However, the COVID- 19 outbreak could become more severe and result in a more widespread health crisis and/or result in a global recession because of disruptions of economic activity. Any of these factors may have a material adverse effect on your Company's financial condition and results of operations.

Execution

Execution depends on several factors which include labour availability, raw material prices, receipt of approvals and regulatory clearances, access to utilities such as electricity and water, weather conditions and the absence of contingencies such as litigation. Your Company manages the adversities with cautious approach, meticulous planning and by engaging established and reputed contractors. As your Company imports various materials, at times execution is also dependent upon timely shipment and clearance of the material.

Rental realizations

The rental realizations on the space leased depends upon the project location, design, tenant mix (this is relevant in the case of shopping malls), prevailing economic conditions and competition. Your Company has set up its retail property in prime location and maintains a fresh ambience resulting in crowd pull and attracting first time kind of retailers. As far as the office space rentals are concerned, the same depends on demand and supply, general economic conditions, business confidence and competition.

Land/Development rights – costs and availability

The cost of land forms a substantial part of the project cost, particularly in Mumbai. It includes amounts paid for freehold rights, leasehold rights, fungible FSI, construction cost of area given to landlords in consideration for development rights, registration and stamp duty. Your Company acquires land/land development rights from the government and private parties. It ensures that the consideration paid for the land is as per the prevailing market conditions, reasonable and market timed. Your Company also enters into MOUs and makes advances for the land/land development rights prior to entering into definitive agreements. The ensuing negotiations may result in either a transaction for the acquisition of the land/land development rights or the Company getting a refund of the moneys advanced

Financing costs

The acquisition of land and development rights needs substantial capital outflow. Inadequate funding resources and high interest costs may impact regular business and operations. Your Company has always tried to build sufficient reserves resulting out of operating cash flows to take advantage of any land acquisition or development opportunity

Outlook

As we enter 2021, the momentum of historic sales could slow a bit but will remain strong to narrate a positive story. Unlike the past year, the real estate sector is now picking up with home buyers willing to make the move. With most workers displaced during the lockdown now back, construction activity has resumed and work is moving at a

faster pace to fulfil commitments.

In Mumbai, there are a lot of properties which were unsold but ready to move in, with no GST to be paid because occupation certificates were already issued. This has also helped home buyers look at real estate proactively and as an investment.

The demand for residential property has in fact also been guided by the concept of work from home — as families are now looking out for an upgrade as individual space becomes a crucial factor.

Strengthen relationships with key service providers and develop multiple vendors

In order to continue delivering landmark offerings to our customer, we shall further strengthen our relationship with our key service providers, i.e. architects, designer and contractors. Your Company is also working on strategy to develop more and more vendors who can deliver product and services in line with Company's philosophy and product offerings.

Internal Control Systems

The Company has also focused on upgrading the IT infrastructure – both in terms of hardware and software. In addition to the existing ERP platform, the Company is presently reviewing the process documentation to ensure effectiveness of the controls in all the critical functional areas of the Company.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectivies are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may invlove collusion, forgery, intentional omissions, misrespresntations or the override of internal control.

Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has the adequate internal financial controls system in place and the operating effectiveness of such controls.

Evaluate the appropriateness of accouting policies used and the resonableness of accouting estimates and related disclosures made by management. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainity, exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Evaluate the over all prsentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowlegdeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work: and (ii) to evalute the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance redarding, among other matters, the planned scope and timming of the audit and significant audit findings, including any significant deficiencies in the internal control that we identify during the audit report.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charges with governance, we determine those matters that were of most signficance in the audit of the standalone financial statements of the current period and are thereofore the key audit matters. We describe these matters in our auditor's report unless law or regulations precludes public disclosure about the matter or when, in extermely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Annexure "B" to the Independent Auditors' Report

Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of AGI Infra Limited ("the Company") as on 31st March, 2022 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the company's policies, the safeguarding of its assets, prevention and detection of frauds and errors, the accuracy and the completeness of the accounting records and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by Institute of Chartered Accountants of India and Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of the material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion to the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
2) provide the reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directions of the company; and
3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the criteria internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectivies are to obtain reasonable assurance about whether the Consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisisions of users taken on the basis of these Consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the Consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may invlove collusion, forgery, intentional omissions, misrespresntations or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has the adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accouting policies used and the resonableness of accouting estimates and related disclosures made by management. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainity, exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the over all prsentation, structure and content of the Consolidated financial statements, including the disclosures, and whether the Consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Materiality is the magnitude of misstatements in the Consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowlegdeable user of the Consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work: and (ii) to evalute the effect of any identified misstatements in the Consolidated financial statements.

We communicate with those charged with governance redarding, among other matters, the planned scope and timming of the audit and significant audit findings, including any significant deficiencies in the internal control that we identify during the audit report.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charges with governance, we determine those matters that were of most signficance in the audit of the Consolidated financial statements of the current period and are thereofore the key audit matters. We describe these matters in our auditor's report unless law or regulations precludes public disclosure about the matter or when, in extermely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Annexure "A" to the Independent Auditors' Report

Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of AGI Infra Limited ("the Company") as on 31st March, 2022 in conjunction with our audit of the Consolidated financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the company's policies, the safeguarding of its assets, prevention and detection of frauds and errors, the accuracy and the completeness of the accounting records and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by Institute of Chartered Accountants of India and Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of the material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion to the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

2) provide the reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directions of the company; and

3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the criteria internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants. of India
