OUR ESTEEMED CLIENTELE

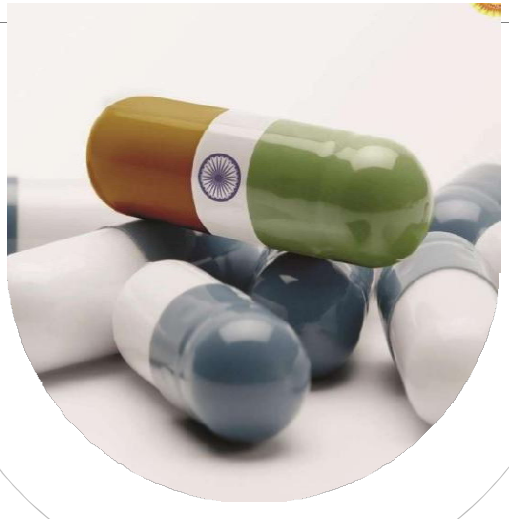

INDUSTRY OVERVIEW

INDIA- a strong exporter of pharma & Specialty Chemicals Globally

A significant and rising player in the Global Pharmaceutical industry

India's drugs and pharmaceutical exports stood at US$ 27.9 billion in FY24

FDI inflows in the Indian drugs and Pharma sector reached US$236 Mn. between April 2023-June 2024

India is the 12th largest exporter of medical goods in the world

Indian drugs are exported to more than 200 countries in the world, with the US being the key market

The country''s pharmaceutical sector contributes 6.6% to the total merchandise exports

India ranks 3rd by volume & **14th by value** in pharmaceutical production

Addressing the Opportunity

The central government has earmarked ~Rs { @ 100 billion for the bulk drug industry, including Rs 30 billion for the promotion of bulk drug 3 parks (for the next five years) and Rs 69.4 billion for a production-linked incentive scheme for the promotion of domestic manufacturing of critical ~ *KSMs/Drug Intermediates and APIs in the country (for next eight years).

The scheme has identified 53 critical APIs/Intermediates where India's reliance on China is high and most of which are used to produce essential drugs

Sudarshan Pharma is setting up a manufacturing unit to manufacture few of the critical APIs imported by China

Key Problem Area

Dependence on China for Import of key APIs

Categories	Imports from China (%)
Antibiotics	**75-80**
Hormones, Prostaglandins, Thromboxane & Leukotrienes	**50-55**
Pro-Vitamins & Vitamins	**55-60**
Other heterocyclic compounds	**80-85**
Other organic compounds	**70-75**

India imports ~70% of Intermediate required for APIs (Active Pharmaceutical Ingredients) from China. Imports from China have been increasing over the years

Also, the pandemic which started spreading in the previous year (2020) has resulted in supply disruptions and price rises for key APIs.

Over the last few years, many chemical-based companies have been shut down in China due to failure to meet environment norms. Such step in the bulk drug industry will adversely impact the Indian API industry and subsequently the formulations industry

Further, the Chinese bulk drug industry receives extensive support from the Government in the form of subsidies. Any change in policy on this front will also lead to pressure on margins for the Indian players

Key value Proposition

Why Invest in Sudarshan Pharma Industries Limited

Sudarshan Pharma Industries Limited delivers **trusted pharmaceutical solutions** through a strong focus on **quality, compliance, and long-term partnerships**. With a robust portfolio of Specialty chemicals , Advanced Intermediates , Active Pharmaceutical Ingredient's (API) & excipients and we consistently meet **IP, BP, and USP standards**, ensuring reliability for regulated markets.

Our strength lies in **ethical operations, transparent documentation, and customer protection**, backed by experienced industry professionals and efficient supply chain management. We prioritize **on-time delivery, technical support, and regulatory readiness**, enabling our partners to scale with confidence.

Driven by a clear growth vision, Sudarshan Pharma Industries is committed to **sustainable expansion, market diversification, and value creation**, making us a dependable and future-ready partner for investors and customers alike.

Market Pain Point & Opportunity We Address

The global pharmaceutical supply chain faces a critical challenge due to **high dependency on China** for Raw material of specialty chemicals, intermediates and excipients. This dependency exposes manufacturers to **price volatility, inconsistent supply, geopolitical risks, tariff uncertainties, and regulatory disruptions**, impacting cost stability and production timelines. Frequent **rate fluctuations, logistics disruptions, and changing trade policies** have created an urgent need for **reliable, compliant, and diversified sourcing alternatives** for regulated markets.

Our Solution – The Sudarshan Advantage

Sudarshan Pharma Industries addresses this gap by offering a trusted India-based alternative to China. We deliver high-quality Specialty Chemicals, Advanced Intermediates, APIs, and Excipients manufactured and sourced in compliance with IP, BP, and USP standards, ensuring consistency, transparency, and long-term supply security.

- ✓ Cost stability and predictable pricing
- ✓ Supply chain resilience
- ✓ Tariff and geopolitical risk mitigation
- ✓ Regulatory-ready documentation for global markets
