V.L. Infraprojects Limited: Excellence In Water Infrastructure & Irrigation Projects

- V.L. Infraprojects Limited specializes in designing, constructing, and commissioning various government projects, particularly in the water infrastructure and irrigation segments.
- They are involved in executing water supply and sewerage infrastructure projects, including the procurement and installation of pipes, construction of civil works, and installation of electro-mechanical equipment, as well as providing operations and maintenance services for water distribution pipelines.
- The company is a Government Approved Contractor in “AA” Class with the Government of Gujarat and holds various licenses and registrations in Karnataka, Telangana, and Madhya Pradesh.
- The Vision of the Company is to stride towards becoming a prominent player in Engineering and Construction Industry
- The Company got listed on the Emerge platform of NSE SME on July 30th, 2024

Vision, Mission & Opportunities Ahead

Our Vision

To achieve and retain the position of most valuable infrastructure development by delivering products and solutions which meets global standards and thus creating values.

Our Mission

Empowering communities through innovative infrastructure solutions, VL Infraprojects Limited envisions a future where sustainable development fosters prosperity for generations to come.

Opportunities Ahead

The higher growth rate expectations are based on the likely better performance from the manufacturing emanating from strong consumer demands. In order to achieve and sustain the anticipated growth levels large investments in infrastructure development is required and the plan for investments in road, rail, air and water transport, power generation, transmission and distribution telecommunication, The planned development would entail huge investments in infrastructure, which in view of limited government resources, would be achieved by promoting public-private partnerships. The VL Infraprojects intends to be part of the country's vision of a developed nation and thus create value for the society.

"VL Infraprojects Limited: Delivering excellence on time, every time—building trust through quality and reliability."

Empowering Projects: Core Service Offerings

Water Pipeline Construction

Irrigation Projects

Road Construction

Building Construction

Water Pipeline Construction

V.L Infra has completed water supply projects in both cities and rural areas. They offer solutions for water supply problems and promote sustainable water management.

Their approach uses smart infrastructure and management to reduce water wastage, leakage, and theft.

The government's river interlinking project aims to distribute surface water further using pipelines and regional schemes.

This company is a key player in building large pipelines and Rural Water Supply Projects (RWSS).

Micro Irrigation & Specialized Sub-contracting Services

Irrigation Projects

Micro irrigation delivers water directly to roots, saving water and boosting crop yields ("Per Drop More Crop").

Road Construction

V.L. Infra is executing small sub-contracting works in Road projects like road shoulder bund preparation, small bridges and RCC road works only.

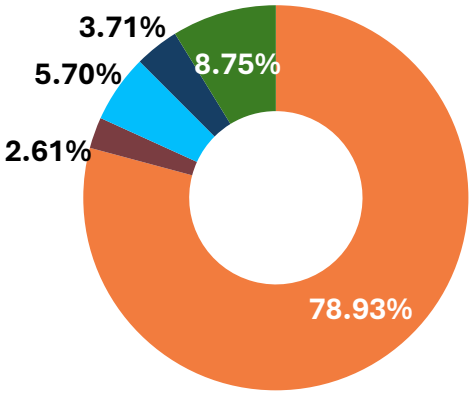

Building Construction

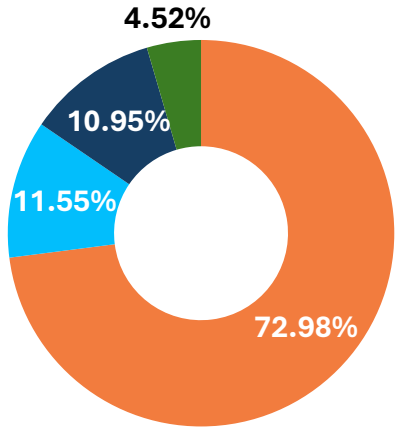

V.L. Infra sub-contract building projects, focusing on foundations (earthwork), concrete structures (RCC), and brickwork for offices and apartments

Sustaining The Winning Edge

Experienced Promoters & Management Team
V.L Infra is led by promoters with over 45 years of combined experience in various fields, and a management team of experienced professionals who drive growth and implement strategies effectively.

Focused player in Water Supply Projects
With over 10 years of experience, V.L Infra has a strong focus on Water Supply Projects, leading to a significant order book across multiple states, driven by technical capabilities, quality, and timely performance.

End-to-end execution capabilities
V.L Infra's in-house operations cover design, engineering, procurement, construction, and quality assurance, ensuring efficient, timely, and cost-effective project completion.

Optimal Utilization of Resources
Continuous improvement in execution processes, employee skill upgrades, and modernization of equipment help optimize resource utilization, leading to efficient project execution.

Long-standing relationships with customers
A reputation for timely and quality project completion has helped the company build strong, long-lasting relationships with numerous reputed clients.

SWOT Analysis

Strengths

- Experienced Promoter
- Qualified Team
- Good relation with existing clients
- Quality Services

Opportunities

- One of the Emerging Market
- Government Incentives

Weaknesses

- Dependency on Suppliers for raw material
- Capital Intensive Business

Threats

- Price Volatitity on raw material
- Change in government policies

Pathway To Expansion: Strategic Focus Areas

Enhance Project Execution Capabilities

V.L Infra aims to improve project execution to achieve higher client satisfaction and better operating margins, leveraging equipment and project management tools to increase productivity and asset utilization.

Leverage Market Skills and Relationships

V.L Infra focuses on maintaining strong customer relationships and leveraging operational and marketing skills to enhance client satisfaction and business growth.

Maintain Competitive Edge

By scaling execution capabilities and investing in top-quality equipment, skilled labour, and materials, the company seeks to maintain its edge over competitors and deliver superior quality construction.

Expand Geographical Footprint

V.L Infra plans to expand beyond Gujarat by undertaking projects in new states, broadening its revenue base, and hedging against geographical concentration risks, leveraging its existing client relationships for pan-India projects.

Board & Management: A Foundation Of Strength

Mr. Rajagopal Reddy Annam Reddy

Chairman, Managing Director & CEO

Mr. Reddy completed his Bachelor of Engineering (Mechanical) from Sri Venkateswara University in 1998.He obtained an MBA from the Indian School of Business Management and Administration in 2009.He has over 24 years of experience in the construction industry.

Mrs. Mydhili Rajagopal Reddy

Whole Time Director

Mrs. Mydhili completed her degree in Bachelor of Commerce from Sri Venkateswara University in the year 2002. She is having over 12 years of experience in the administration and human resource (HR).

Mr. Nageswara Rao Repuri

Whole Time Director & CFO

Mr. Nageshwarao completed his degree of Bachelor of Commerce from Andhra University in the year 2004. He is having over 18 years of experience in the Accounting.

Board & Management: A Foundation Of Strength

Mr. Kamleshkumar Kantilal Wakharia

Independent Director

Mr. Kamleshkumar completed Bachelor of Engineering (Civil Engineer) from Nagpur University in the year 1983. He is having more than 32 years of experience in the field of civil engineering.

Mr. Mallikarjuna Katta

Independent Director

Mr. Mallikarjuna holds the Degree of Chartered Accountant from The Institute of Chartered Accountant of India (ICAI) since 2009. He has completed her Bachelor of Commerce from Osmania University in the year 1993 and passed Limited Insolvency examination conducted by Insolvency and Bankruptcy Board of India (IBBI) for Insolvency Professionals in the year 2020. He is having over 24 years of experience in the field of accounting.

Mr. Venkata Rama Krishna Akella

Independent Director

Mr. Venkata Rama completed Bachelor of Commerce from Osmaia University in the year 1982. He also completed Bachelor of Law from Osmaia University in the year 1990. He is having over 37 years of experience in the field of banking.

India's Thirst: Opportunities in the Water Infrastructure Market

India is grappling with a severe water crisis, where escalating demand far exceeds the available supply. Strategic investments in robust water infrastructure are not just beneficial, but absolutely essential.

Driving Growth In Water Infrastructure

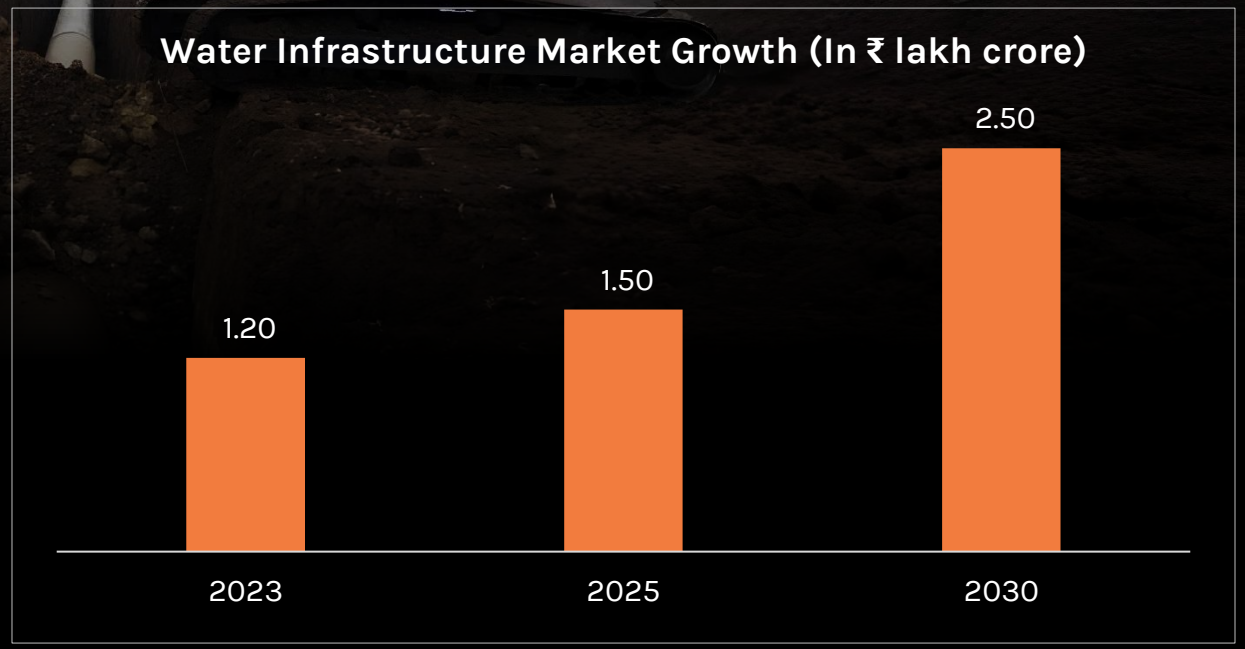

India's water infrastructure sector is expected to grow significantly due to government initiatives like Jal Jeevan Mission and AMRUT 2.0.

- The water infrastructure and irrigation sector in India is poised for significant growth, driven by robust government initiatives such as the **Jal Jeevan Mission** and **AMRUT 2.0**, which aim to provide 100% piped water supply to rural households and improve urban water management.

- The market, valued at ₹1.2 lakh crore in 2023, is projected to grow at a **CAGR of 10%**, reaching ₹2.5 lakh crore by 2030. With over 50% of India's population still lacking access to safe and reliable water supply, the demand for water supply, sewerage infrastructure, and irrigation projects remains immense.

- Additionally, government spending on irrigation modernization and micro-irrigation projects further amplifies growth opportunities. This favorable landscape, coupled with increasing urbanization and population growth, positions the sector as a key driver of India's infrastructure development, offering substantial opportunities for established players like V.L. Infraprojects Limited.

Strategic Budget Allocations For Key Government Initiatives

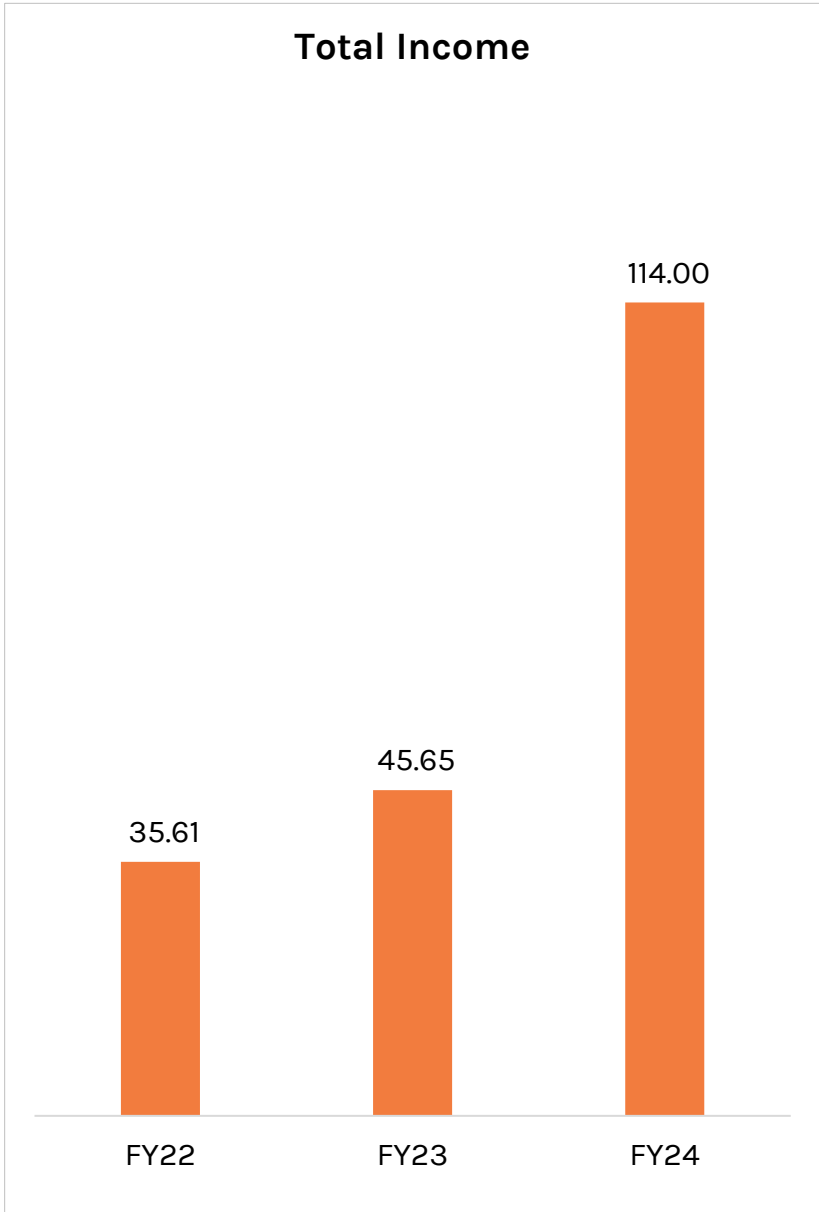

Ministry of Jal Shakti Scheme/Programme	FY 2024-25 (₹ Cr)	FY 2025-26 (₹ Cr)	Change
Namami Gange II	3,345.70	3,400.00	+ 1.6%
River Basin Management	154.79	243	+ 57%
Atal Bhujal Yojana	1,778.00	1,780.40	+ 0.1%
National Water Mission	67.06	70	+ 4.4%
PMKSY	8,249.80	8,259.80	+ 0.1%
National River Conservation Plan – Other Basins	592.11	558.09	-5.7%
Interlinking of Rivers	3,500.00	2,400.00	-31.4%
Major Irrigation Projects (DRIP and Farakka Barrage)	126.98	119.3	-6%
Jal Jeevan Mission	70,162.90	67,000.00	-4.51%
SBM – Grameen	7,192.00	7,192.00	No Change

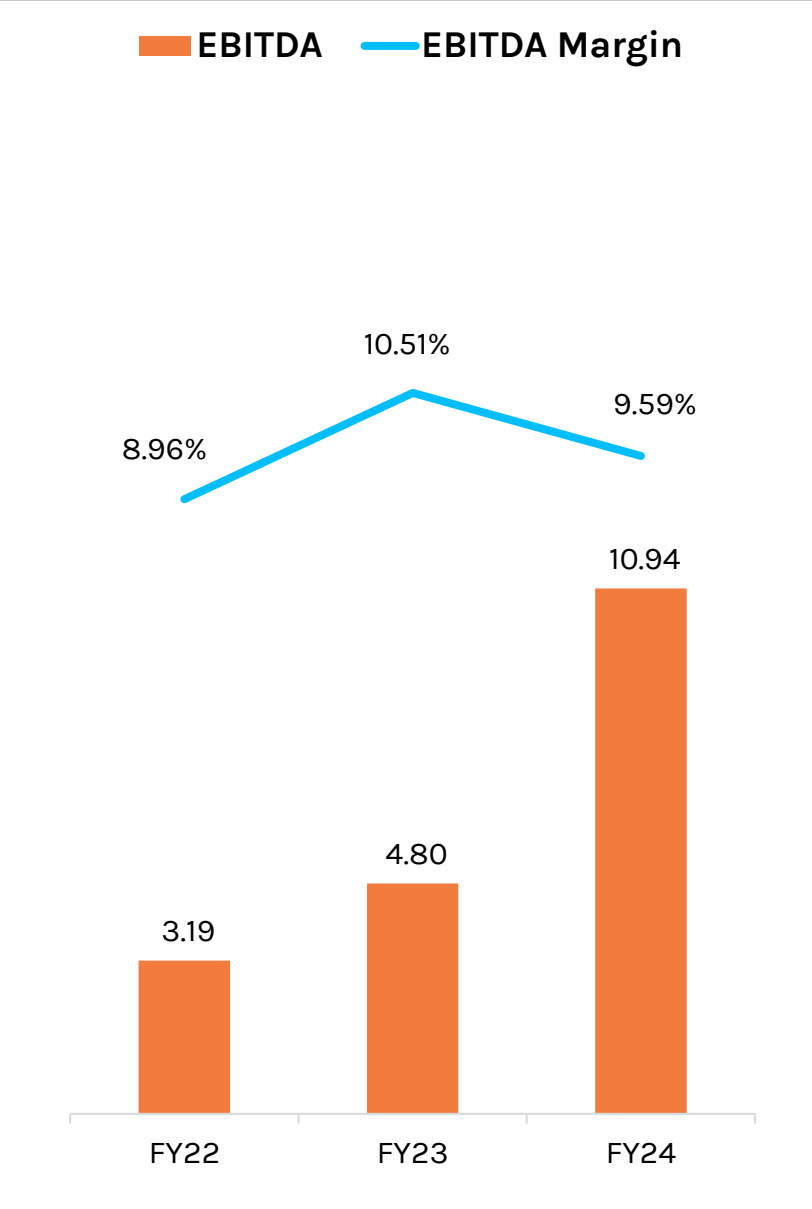

Ministry of Urban and Housing Affairs Scheme/Programme	FY 2024-25 (₹ Cr)	FY 2025-26 (₹ Cr)	Change
AMRUT 2.0	8,000.00	10,000.00	+ 25%
SBM – Urban	5,000.00	5,000.00	No Change

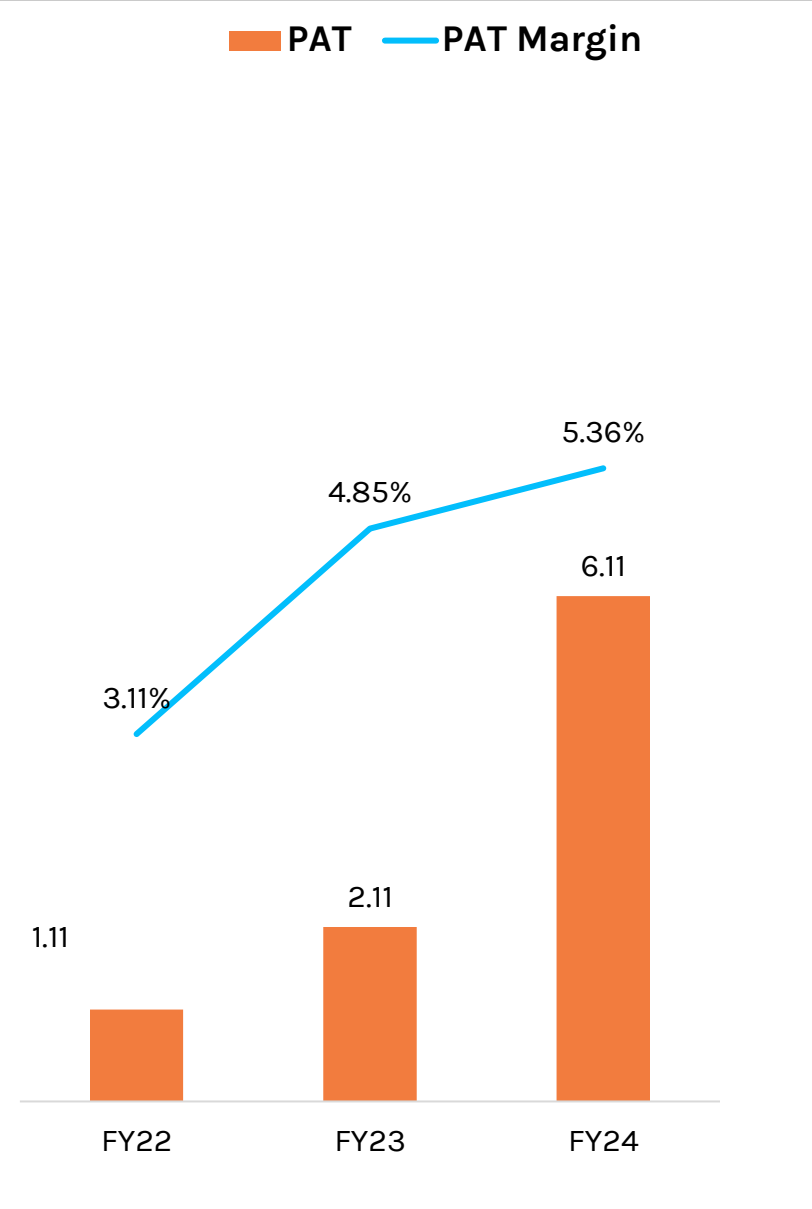

The increased budget allocation for key water infrastructure programs, including Jal Jeevan Mission and AMRUT 2.0, underscores the government's commitment to sustainable water management. This outlay opens up significant opportunities for investment in sub-sectors such as irrigation, water supply, wastewater treatment, and reuse, paving the way for long-term growth and development in the water sector.
