MANAGEMENT DISCUSSIONS & ANALYSIS

1) Industry structure and developments

India's development and construction industry will continue to expand over the forecast period (2017–2020), with investments in infrastructure, residential and energy projects continuing to drive growth.

Various government flagship programs – including 100 Smart Cities Mission, Housing for All, Atal Mission for Urban Rejuvenation and Transformation (AMRUT), Make in India and Power for All – will be the growth drivers.

Due to industrialization, urbanization, a rise in disposable income and population growth the demand for construction services is set to rise. Government efforts to improve the country's residential and transport infrastructure will also support growth.

2) Opportunities and Threats

Opportunities
India has a diversified financial sector undergoing rapid expansion, both in terms of strong growth of existing financial services firms and new entities entering the market. The sector comprises commercial banks, insurance companies, non-banking financial companies, co-operatives, pension funds, mutual funds and other smaller financial entities. The Government of India has introduced several reforms to liberalise, regulate and enhance this industry. The Government and Reserve Bank of India (RBI) have taken various measures to facilitate easy access to finance for Micro, Small and Medium Enterprises (MSMEs). These measures include launching Credit Guarantee Fund Scheme for Micro and Small Enterprises, issuing guideline to banks regarding collateral requirements and setting up a Micro Units Development and Refinance Agency (MUDRA). With a combined push by both government and private sector, India is undoubtedly one of the world's most vibrant capital markets.

Threats
Indian money market is relatively underdeveloped when compared with advanced markets like New York and London Money Markets. Various problems of money markets in India include Dichotomy, Lack of Coordination & Integration, Diversity in the Interest Rates, Seasonality in the markets, shortage of funds, absence of a developed Bill market, Inefficient management etc.

There are different rates of interest existing in different segments of money market. In rural unorganized sectors the rate of interest are high and they differ with the purpose and borrower. There are differences in the interest rates within the organized sector also. Although wide differences have been narrowed down, yet the existing differences do hamper the efficiency of money market.

One of the major problems of Indian Money Market is its inefficient and corrupt management. Inefficiency is due to faulty selection, lack of training, poor performance appraisal, faulty promotions etc. For the growth and success of money market, there is need for well trained and dedicated workforce in banks. However, in India some of the bank officials are inefficient and corrupt.

3) Business Segment

In absence to working capital and finance, there are no such reportable business segments during the year. The Company was in to the business of broking and commission during the year under review.

4) Risk Management & Concerns

The Company's business related software is operated on a server with regular maintenance and back-up of data and is connected to separate server. The system's parallel architecture overcomes failures and breakdowns. Reliable and permanently updated tools guard against virus attacks. The global communication network is managed centrally and is equipped to deal with failures and breakdowns. Updated tools are regularly loaded to ensure a virus free environment.

5) **Internal Control Systems And Adequacy**

The Company has satisfactory internal control system. Audit Committee reviews internal audit reports and oversees the internal control system of the Company. The Company has implemented a comprehensive system of internal controls and risk management systems for achieving operational efficiency, optimal utilization of resources, credible financial reporting and compliance with local laws. These controls are regularly reviewed by both internal and external agencies for its efficiency and effectiveness. Management information and reporting system for key operational activities form part of overall control mechanism.

6) Cautionary Statement

Certain statements under "Management Discussion & Analysis" describing the Company's objectives, projections, estimates, expectations or predictions may be forward looking statement within the meaning of applicable securities laws and regulations. Although the expectations are based on reasonable assumptions, the actual results could materially differ from those expressed or implied, since the Company's operations are influenced by many external and internal factors beyond the control of the Company. The Company assumes no responsibility to publicly amend, modify or revise any forward looking statements, on the basis of any subsequent developments, information or events.

"Annexure B" to the Independent Auditor's Report of even date on the Standalone Financial Statements

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of VAISHNO CEMENT COMPANY LIMITED ("the Company") as of March 31, 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Instituted of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

(iii) Use of estimates

In preparing the financial statements in conformity with generally accepted accounting principles, management is required to make judgements, estimates and assumptions that may affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities as at the date of financial statements and the amounts of revenue and expenses during the reported period. The estimates and assumptions used in the accompanying financial statements are based upon management's evaluation of facts and circumstances as at the date of the financial statement. A contingent liability exists when there is a possible but not probable obligation, or a present obligation that may, but probably will not, require an oulflow of resources, or a present obligation whose amount cannot be estimated reliably. Contingent liabilities do not warrant provisions, but are disclosed, unless the possibility of outflow of resources is remote. 3. Significant estimates and judgements

a. The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the company's accounting policies.

This note provides information about the areas that involved a higher degree of judgment or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed.

b. The preparation of financial statements in conformity with the measurement principle of Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities. Accounting estimates could changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Differences between the actual results and

estimates are recognized in the year in which the result are known / materialized and, if material their effect are disclosed in the notes to the financial statements. Application of accounting policies that require significant areas of estimation, uncertainty and crucial judgments and the use of assumptions in the financial statements have been disclosed below.

Impact of Covid 19 On the basis of assessment of the impact of the outbreak of COVID-19 on business operations of the entity, the entity's management may conclude that no adjustments are required in the financial statements as it does not impact the current financial year. However, the situation with COVID- 19 is still evolving. Also, some of the various preventive measures taken are still in force, leading to a highly uncertain economic environment. Due to these circumstances, the management's assessment of the impact on the subsequent period is dependent upon the circumstances as they evolve.
